Dear brethren at Buford,

Many of you know that the property we have for the construction of various buildings in India is a gift from my family for the work of the church. Many of you also know that we had issues with surveying errors for almost two years. After I arrived in India, I have been flooded with tears of joy and gratefulness after being overwhelmed on more than one occasion.

One thing that I did not know until I arrived is that my family took the initiative to seek permits and resolve issues. Another thing that I did not know is that my family purchased another property and worked on the surveying matters, building permits and donated the property for the work of the church. This is another property (a block from the older one) on top of the one that they have already donated few years ago!!! Attached is a photo of the new property captured by a drone!!!

I have been processing this generous gesture and filled with deepest emotions of gratitude for my family here in India, for my family in the US and for God working through all of y'all's hearts.

When my Dad and brothers found out through trusted officers that the building permits for the older property is going to be delayed much longer (as the errors were grave enough to cause that great delay), they resolved to get this done for the glory of God. They not only ventured to get these buildings done but also determined to put an end to the mental agony of dealing with the issues of older property.

During my few months in the US, they got everything ready to construct buildings! The level of sacrifices my family here in India and you, the family in the US have made and continue to make are the direct force behind all these accomplishments for our Lord here in India! I truly wish y'all were here with me to witness what I have witnessed since my arrival in India!

I give thanks to the Lord, for His goodness is way beyond human imagination!

Love,
Mani

Dear brethren at Buford!

I hope you got to see the updates and photos of the new converts I have posted on FB!

We had 102 baptisms today and over 200 in the past three days!

I posted these on FB but wanted to get it to you!

Thank you very much for everything y'all are doing to empower the church here! The biggest and only loser in all of this is Satan! God is helping the church here in India shatter the strongholds of Satan each day through the partnership we have with many Christians!

Yours in Christ,
Mani

30 BAPTISMS TODAY

Dear brethren,

Today marked the planting on another congregation and seen here in this picture are the new converts with their families! This is a major landmark for the work here in terms of number of converts and the planting of congregations in various parts and provinces of India!

Today we witnessed the number of converts go past Three Thousand (3004 thus far this year) and the planting of Seventy Two (72) congregation!

This is the highest so far in one calendar year since 2012!

Have a wonderful Lord's Day at Buford!

Mani
